No. 10, Vol. 1, Vernal Equinox 2008

Modern Grimoire Magick: Folk Magick and The Solomonic Path

Aaron J. Letch

The medieval systems of "grimoire" mysticism (of which the European Solomonic tradition is a part) are outlined in such manuscripts as *The Key of Solomon the King*, the *Goetia*, the *Book of Abramelin*, *The Magus*, etc.<sup>[1]</sup> The authors of these texts (many of them members of the medieval Catholic Church) drew magical secrets from the cultures they found around them - such as Jewish *Merkabah* *Mystrum* and *Qabalah*, classical Gnosticism, Arabic *Sufism* and the rich traditions of European pagan folklore.<sup>[2]</sup>

The mysticism that evolved among these Christian magicians was fairly shamanic. It called upon the Angels and spirits of nature. It described methods of exorcism and acquisition of spirit familiars. Wax images, sachets, incense and astrology all proved a marked pagan influence on the texts. Yet, they were unquestionably the work of devout Christians, who invoked the name of Jesus, used standard Christian prayers (such as the *Pater Noster* and the *Psalms*) as magical spells, and presented a blatantly Christian mythos.

The Solomonic mystics were unique because they were among the first humans in history to have access to the technology of paper and bound books.<sup>[3]</sup> (They were very often scholars, scribes or scrives.) Therefore, they naturally recorded much of their tradition into manuscripts called textbooks or "grammars" (French: *grimoire*). The appearance of these grimoires shocked Roman Catholic and many Protestant authorities so deeply, it triggered the Inquisitions and mass book burnings. What we know of Solomonic mysticism today comes largely from the grimoire manuscripts that survived.

After the Inquisitions, the Age of Enlightenment dawned in Europe. The surviving grimoires had vanished into private collections and museum archives - mostly guarded by the Masons as occult curiosities. There was the odd scholar or quasi-Masonic group (most of them students of Hermeticism) who discovered the texts and made use of some of the material. You might recognize many of the names - Elias Ashmole, "Dr. Rudd", Francis Barrett, MacGregor Mathers and Aleister Crowley as just a few. However, few of them practiced the texts on their own terms. The more pagan elements of the grimoires vanished, and the mark of Masonic lodge-style magick was eventually imprinted upon them.

How to pronounce ars goetia.

A strong preference for darkness or night. What does Grimoire mean? It has to be pronounced in a similar way to, "Arse", another, "Arsholes", simply would not work correctly. How is AARs pronounced? How is Gangu pronounced? Astropofile (plural astrofiles) who loves stars or astronomy. What does Nyctophilia mean? How is Dohereiner pronounced? Sigail or Sigils is a type of symbol used in magic.
