# Information about indian space program

What is india's space programme. What is indian space station.

November 7, 2006. With the exception of its first flight in 1994 and two partial faults, the PSLV had a raffle of 50 successful flights. An unmanned demonstration flight was expected after seven years since the end approval and a crew that would be launched after Seven financing years. [59] The mission manned was not a priority and left in the background for several years. [60] The recovery experiment of a space cAdpsula in 2014 [61] and an abortion test with pillow in 2018 [63]
